

# Home Learning CHALLENGES \_\_\_\_\_

English	Parent to sign here	Science/Maths	Parent to sign here	Topic/Other	Parent to sign here
Create a new cover for the book you are reading.		Create a survey (on anything you like). Use the data to create a bar chart. For example-you could count the number of cars which drive past in an hour.		Create a poster to advertise the trip to the beach! Include all the things we need to take and all the things we are going to do!	
Write a letter to a character in your book to find out more about them.		Plant a seed and measure how much it grows each week until the end of term.		Design a pirate treasure map-use co-ordinates to direct your friends to the hidden treasure.	
Find 5 words in your book you don't know the meaning of and look them up. Write the definition in your book.		Create a shadow diary. Go outside to the same place once an hour, draw how your shadow changes throughout the day. You could take some pictures!		Go for a walk around your local area-use symbols to create a map of the area you live in!	
Draw a comic strip for the book you have most recently read.		Bake a cake with your adults. Measure the ingredients (using g). Write the recipe. The best attempt we can copy and send home for all the class to bake!		Find/learn a song or poem about the seaside/pirates. Learn it off by heart ready to perform to the class.	
Write a prediction for how the story will end based on what you have read so far.		Create a summer drink. Measure the ingredients using ml, write the recipe for the rest of the class.		Make a pair of sunglasses using the items you have at home.	
Create an alternative ending for the book you have most recently finished.		Create a pictogram-you could visit the park and record how many different plants/animals you see.		Create a costume for a pirate-use technical language to label his/her uniform.
