Learning YR5

Thursday 7th May

Hello everybody- I hope everyone is safe and well. We continue to enjoy hearing about your learning and how you are keeping busy. Today, I have set another three tasks and another question! Please keep sending in your learning photos.

Question: Can you remember the name of the boy in The Time Travelling Cat?

Bonus question: How did he get this name?

Now here are your 3 activities:

1. As tomorrow is V.E Day- you are to research a war medal, then design one of your own, explaining what it is for, who it is for, what it is made of etc.

Extension: To make a replica medal – either a real one or your designed one

2. English: To research facts about V.E DAY- what does it stand for? What happened? Who was the PM? Who was on the throne? Etc.

Extension: To write a paragraph to explain the mood at that time, how would the people have felt? What did this mean to them?

3. Maths: follow this link to continue the lessons on multiplying and dividing decimals and perimeter- sheets were attached with Monday's letter. To save printing these out, just write the answers in a book or on paper.

<https://whiterosemaths.com/homelearning/year-5/>

Extension: Using numbers, can you invent a secret code and write a message for someone in your family to crack?

I will send out three more activities next Monday. Remember to keep sending in your replies and photos - we will look forward to hearing from you, love from Ms Malyon, Mrs Williams, Ms Baker and Ms Brett.
