

# Magnolia and Willow Classes Home

## Learning YR5

Thursday 14th May

Hello everybody-I hope you are all safe and well. We continue to look forward to hearing from you. Today, I have set another three tasks and this time a riddle! There is a competition between the classes as to how many children answer their class learning emails. Figure out this riddle and reply - I will let you know if you are correct- or I'll let you know the answer if you are not correct.

Riddle: What is in seasons, seconds, centuries and minutes but not in decades, years or days?

Now here are your 3 activities:

1. To draw up a design plan for your 3D model of your London landmark. What materials will you use, how will you construct it, what additional features will you add to it etc. It must be 3D and able to stand up unaided.

Extension: Can you draw a London skyline that includes your London landmark.

Continue to save boxes and kitchen rolls to build a model of your chosen London landmark.

- 2 English: Using the River Thames powerpoint- and other sources of information if possible- write a non-chronological report on the River Thames- remember sub-headings and organisation of information and facts.

Extension: If you were an entrepreneur, what business would you start using the River Thames eg, would it be in entertainment, travel, environment?

- 3 Maths: To continue to complete the attached maths sheets. To save printing these out, just write the answers in a book or on paper.

Extension: To complete this additional conversion sheet.

I will send out three more activities next Monday. Remember to keep sending in your replies and photos - we will look forward to hearing from you, love from Ms Malyon, Mrs Williams, Ms Baker and Ms Brett.
