

Year 3 home learning

Monday 8th June

Hi guys,
Hope you all had a good weekend!

Here are Monday's three tasks we have set for you:

English

Find out (the definition) of persuasive writing and write down at least 2 examples, listing the features.

You can set your writing out using bullet points if it helps, but there should be three distinct parts; definition of persuasive writing, two examples of what persuasive writing looks like (real-life examples) and what features it should have.

Maths

Using your tally chart from last week, create a bar chart to show the number of different species of wildlife you found. If you need to see how one is set out have a look at the link <https://www.mathsisfun.com/data/bar-graphs.html>

Extra activity: Play 8x table bingo with your mum, dad or brother/sister, but watch this first! https://www.youtube.com/watch?v=C8b_Kj9bYHQ&t=1s

Science

Watch the clips to see if your plant life cycle was in the correct order.

<https://www.youtube.com/watch?v=tkFPyue5X3Q>

<https://www.youtube.com/watch?v=zPqnYYI2Uq8>

Write down, using paragraphs, what you have learnt about a plant's life cycle.
