

## Birch and Tulip Class Home Learning Challenges for Thursday July 2<sup>nd</sup>

Hello Year 1,

Some more home learning challenges for you!

### English

I hope you have been enjoying our stories with fantasy settings. We have looked at 'The Gruffalo', 'Where The Wild Things Are', 'Tiddler', 'Here Come The Aliens' and 'The Magic Bed'. Can you remember what the setting was, for each story?

In 'The Magic Bed', Georgie says a word and the bed takes him to different fantasy settings.

Imagine you had an object that made you go to different places. I would have a beautiful, patterned box and when I opened it, I would suddenly be in a different place. What would you have? Now draw it and write a sentence to tell me what you have to do, to make it work.

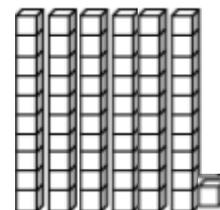

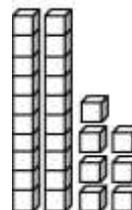

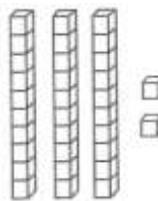

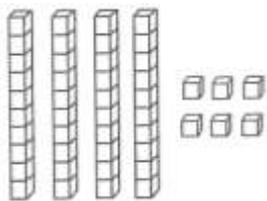

Challenge: Write a sentence about where it takes you. Remember your adjectives. e.g. Suddenly, I was in an amazing, underwater cave.

### Maths

Do you remember when we learnt about place value? We had tens and ones. If you can, watch the lesson on <https://whiterosemaths.com/homelearning/year-1/> Go to Summer term, week 9, especially lessons 1 and 2 for place value.

What are these numbers? Remember to count in 10s then 1s.

Now draw and label some of your own.

Challenge: Say 1 more and 1 less than each of these numbers.

### Science

It's time to look at another animal family - insects. **They have 6 legs and 3 parts to their body, they lay eggs and they often have wings.** We are also going to look for other minibeasts who live in the garden or park. Make a list of all the ones you see. Here are some to get you started. Which ones are real insects?

butterfly

moth

worm

bee

snail

Top tip - try picking up some stones or logs - they like to hide underneath!

Good hunting,

Mrs Vitty and Miss Trayer
