SCIENCE

Earth and Space

To describe the movement of the Earth and other planets relative to the sun in the solar system

To describe the movement of the moon relative to the Earth

Forces

To explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object. To identify the effects of air resistance, water resistance and friction, that act between moving surfaces

Our Changing World - allotment visit (if allowed)

COMPUTING

3D Modelling linking with Google London

Coding: Game creator

Online safety: Validity of sources

Google London' means London's calling... in this topic we will explore the iconic and famous landmarks that have become London. We will discover who were its first settlers and review the timeline of the history surrounding this city. We will also discover; the important role the River Thames has played throughout our history. We will be undertaking the water cycle through our River Thames study and also developing our map reading skills in London and our local area.

WOW:

Sketch & 3D models of London landmarks

Tourism - ICT based project to promote London landmarks.

All visits are currently cancelled due to Covid19

Google London
