

Week 2 Home learning – Topic

Design Your Own Treasure Island

As an introduction to our new topic of Treasure Island we would like you to create your own island where treasure is hidden...oooo arrrrrrhhh! (pirate noise).

Task 1:

Use the google earth (if you can) or ask family/friends to help you decide where in the world your island will be located.

Ask yourselves:

- Which sea or ocean does your island lay in?
- Is it in the Southern or Northern Hemisphere?
- Which countries are closest to your island?
- Which continent may claim it as their own?

Task 2:

Draw your island on a sheet of paper or in your pink book or on the PDF attached to the email.

Decide:

- What landmarks have you added to your island?
- What are the co-ordinates of a specific landmark?
- What is your most southerly landmark?
- Can you work out the total area of your island?

BE CREATIVE – EMAIL A PHOTO IF YOU CAN!
