What's going on this week?

The newest toy craze sweeping schools called Pop-Its has replaced the fidget spinner as the must-have item in the hands of both young and old. TikTok exposure is behind their rapid popularity increase, with the hashtag '#popit' gaining over two and a half billion views! Pop-Its are the newest sensory fidget toy where users repeatedly pop dimples in and out in the same way you may pop bubble wrap. Pop-It style toys were originally created to be used as a stress-reliever to help some children concentrate in school. But in some schools, they have been thought of as a classroom distraction.
