Read a story and draw or paint the setting. It may be under the sea, in a forest or have a fantasy setting.		Measure and record the height of all the members of your family. Who is the tallest? Who is the shortest?		Create a garden 'shoebox' and bring it in to show the class.	
Choose a plant or an animal and find out 5 facts about it. Now make a poster to show what you have found out.		Use your maths skills to count something at home in 2s, 5s or 10s. Draw a picture or take a photo to show what you counted.		Make a fruit salad. Can you write instructions?	
Go to a Garden Centre. What did you see? Tell a friend or the class about your visit.		Use different fruits and vegetables and test their mass by seeing whether they float or sink in water.		Make your own plant pot using different materials. Plant a seed in it and see if it grows.
